## **MOORING AND SERVICES POLICY**

### **TRANSIENTS**

Upon arrival, each boat shall register with the launch operator. Boat name, captain, address, telephone, email, club affiliation if any, number of persons on board, time of arrival, estimated time of departure, fee and method of payment shall be recorded. Launch will supply this information to the Secretary for distribution to the Executive Committee and Treasurer monthly during the regular boating season.

Moorings of Members not being used for one or more days may be used by the Boat Club with the owner's permission. Notice should be given to the Launch Drivers of availability and dates.

## **PARKING REGULATIONS**

Parking in the Satuit Boat Club Parking Lot is for Members with Permit only.

**One numbered parking permit will be issued annually to each Member or family.** The number will be recorded with the Member's name. The permit will be transferable from one car to another, but only cars with a valid parking permit will be allowed in the lot. It is suggested that Members arriving early please use the paved town lot beside the club. This will allow late arriving Members a chance to get in the Club's lot. Do not park in spaces for trailers as you will be ticketed.

Inform your expected guests that parking is for Members only and

make appropriate arrangements. This applies to racing crews also.

A distinction is made between **'single night'** overnight parking and **'multi-night'**. Members are always encouraged to avoid all overnight parking by making arrangements to be dropped off and picked up. Occasional **'single night'** parking is acceptable. **'Multi-night' parking is strictly prohibited.**

## FLOAT REGULATIONS

The Satuit Boat Club pier, ramp and floats are for the use and convenience of Members and their guests only. Due to physical limitations and the size of the Membership, the following regulations have been promulgated by the Executive Committee for both safety and availability:

1. The launch operators are full time, seasonal employees of the Club and as such, are charged with the responsibility of communicating these regulations, monitoring compliance, and reporting promptly any violations to the Executive Committee. Members are strongly urged to cooperate with them in the execution of their appointed duties.
2. No overnight tie up allowed without the approval of the Float Chairperson, or Vice Commodore if Float Chairperson is unavailable, and without notification to the launch driver on duty. During weekends (noon Friday to 8 pm Sunday) or holiday periods, yacht tie up to the floats is limited to 30 minutes and yachts must be attended.
3. When the barricade marked **"CLOSED"** is in place at the head of

the ramp, all persons are to remain off the floats for reasons of safety and yacht tie up is prohibited.

4. Both hoses provided on the floats are to be shut off and coiled after using. Return the cart to the clubhouse next to the lockers. They must not be left on the floats.
5. Water is available for all boat owners. Members are requested to be responsible with water and not waste it. Boat club water is not potable. Town water restrictions supersede club rules.
6. No swimming or fishing is permitted from the floats.
7. Children under 12 years of age are not permitted on the floats without PFD's and adult supervision and all non-swimmers should wear PFD's.
8. It is the responsibility of all Members to register in advance any guests coming aboard by sea and not accompanied by a Member that are looking for transient dockage. Advance notice is required and subject to availability. Registration log is kept by the launch operation.
9. Any Vessel used as a utility dinghy, which are usually rowboats or have an outboard motor used to get to a larger vessel, shall not be more than 12 feet length overall, not including the motor. The construction of the vessel and its auxiliaries shall not impede other vessels around it or the egress to the docks. All vessels shall be equipped with at least 15 feet of adequate line to secure the vessel to club docks. All propellers shall be covered if tipped up. No Dinghy may be locked with a lock less than 10 feet from the dock.
10. Owners are to attach a current SBC sticker indicating the season's fee has been paid and it should be prominently marked with the

owner's name or vessel name before vessel is put on the docks. Executive Committee should make periodic review and ensure all dinghies have an authorized boat club sticker.

11. Utility dinghies are to be tied on the floats nearest to the clubhouse on either side of the floats. They are not to be stored upon the floats themselves. If for an extreme circumstance the utility dinghy cannot be tied up at the designated dock, it should be moved to the appropriate area at the earliest time possible.
12. Utility dinghies which violate any of the above regulations will have their owners contacted and instructed to fix any non-conformities within 5 days or the vessel may be removed.
13. No modifications or changes shall be made to the floats or ramp without permission of the Executive Committee.
